Shift Lab

Software Developer - *May 2021 - July 2021*

- Migrated a web app from Bootstrap to TailwindCSS
- Fixed bugs in a Django backend

Grubhub

Sr. Specialist - *Aug 2020 - May 2021*

Specialist - *Oct 2018 - Aug 2020*

- Managed the staffing and retention of independent contractors for Manhattan
- Added new features to our applicant tracking system such as automatically engaging idle drivers from our waitlists, intraday messaging queues, PII scrubber for webhooks, inappropriate image detection, and auto closing SMS threads that don't require responses
- Created various scripts that verified if our ads were placed in the correct markets, performed mass driver level adjustments based on custom criteria, and made hourly inclement weather reports to identify times for driver bonuses
